

# BusinessCharter & Aircraft Management *Solution*

## Motivation

Increasing requests for excellent business charter service and the raising complexity of the business-partner relationship for an aircraft management and business charter company demands for a solution that is able to support these aspects in a perfect way.

## Features

Our new business charter and aircraft management solution provides a perfect support for all business workflows, e.g.:

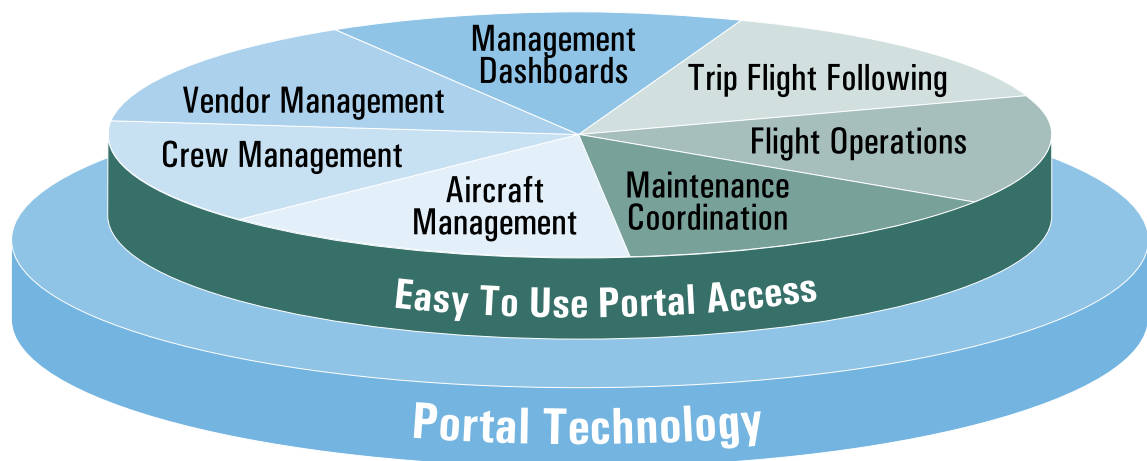

- + Easy to use Internet access for customers, vendors and partners
- + Fast and reliable quoting functionalities
- + Integrated Aircraft and Crew Management
- + Integrated Vendor Management
- + Seamless communication through workflow management
- + Management dashboard for immediate access to vital business indicators
- + Mobile Access for various business processes

## Portal Technology

The solution is based on the newest Application Server and Portal Technology. Therefore the solution is reliable and scalable for any size of the business and provides world-wide access for all users.

## Scope of Services for Charter Management

- + Easy Quote Request for customers through Internet Portal Access
- + Faster Quote creation with realtime aircraft and crew availability
- + Vendor Management and Vendor Ranking to improve quality of service
- + Accurate and up-to-date Customer Credit Clarification
- + Convenient mobile Access for Flight Following and Quote Acceptance
- + Automatic transfer of invoicing data to optimize accounting procedures

## Scope of Services for Aircraft Management

- + Aircraft Management for managed aircraft
- + Improved Flight operations to support better quoting capabilities
- + Crew Management and Scheduler for automatic rest and duty compliance
- + Maintenance Coordination to improve predictability of aircraft availability
- + Faster planning of international flights through request-template management
- + Automatic monitoring on flight changes and immediate alerting

## Scope of Services for all Business processes

- + Time recording and monitoring for better business process throughput
- + Management dashboards for charter and aircraft management with realtime data
- + Seamless worldwide company communication for all staff
- + Integrated no-fly list and automatic checks improve quality of flight release
